- Business Architectures & Transformation Services

# Delivering the Technology for Your Digital Business Transformation

## BRINGING INDUSTRY EXPERTISE TO ACHIEVE YOUR BUSINESS OUTCOMES

Aspire Technology Partners brings over fifteen years of experience and expertise in supporting business transformation while being technology agnostic. This puts the needs of the organization first, enabling solutions to be built around what works best for the organization. Our domain expertise—and skill to consult mindfully about the outcomes the organization pursues—allows us to deliver the desired results.

**Powering business transformation**

In this age of digital transformation, business organizations require agility and adaptability to stay relevant and keep pace with how consumers use their products and services. They must find new ways to deliver exceptional, secure, collaborative and connected digital experiences to customers, partners, and their workforce.

**It begins with understanding**

We are familiar with the challenges facing different markets, which includes creating more efficient business processes and reimagining the delivery of differentiated customer experiences. We take time to understand your business initiatives so we can align technology solutions to drive positive results. Our focus on servicing your needs, combined with our institutional knowledge, and deep know-how of technology architectures, distinguishes Aspire from the rest.

Our transformational framework utilizes a proven, repeatable, outcome-driven methodology that empowers IT leaders to define and manage critical technology changes and helps them achieve the strategic objectives necessary to transform business.

## RECENT COMMERCIAL IMPLEMENTATIONS INCLUDE:

- Aspire removed barriers to video conferencing and brought usability to the boardroom for a publicly-traded leading provider of health products and services bringing secure and seamless collaboration across its many locations.

- Aspire designed and implemented a customized wireless hotspot solution for a large motor coach company and enabled secure connectivity to all WiFi-enabled devices for all passengers anywhere, anytime.

- Aspire accelerated hybrid-cloud transition for a global pharmaceutical leveraging Workload Optimization Manager, which provided better control of workloads and minimized costs.

## WE ARE ASPIRE

We are bound by the values of integrity, respect, and dedication. We gain strength from working together toward a common goal, focused, and driven by the passion of enabling others to succeed. We rise to the commitment of delivering excellence in the continuous pursuit of a customer-first, relationship-driven standard in everything we do. We are relentless in preserving our reputation and stand firm on ideals and principles that push us to become contributors to the broader community.

The Aspire Solution Approach is an end-to-end process that aligns your unique business initiatives with custom-designed solutions scaled to your organization's capabilities and includes planning, implementation, and solution management services.

Whether the technology requirement is completely on-premises, cloud-based or hybrid/cloud configuration, Aspire designs, implements, and deploys secure solutions on time and on budget.

### Recent deployments include:

- Data Protection to ensure information is stored and accessed securely with an agile back-up system.

- Secure yet easy access to resources for a seamless onsite or remote work experience.

- Reliable, always-on connectivity leveraging secure networks and data center infrastructure access for an immersive and true-to-life indoor sports and recreation experience.

- Redesigning existing network infrastructure and installation of wireless networks for better visibility to improve productivity and user experience for all branch locations.

- Enhancing cybersecurity to protect essential IT systems and sensitive data embedded with 24/7 Managed Detection and Response.

- Secure and simple-to-use Telehealth solution for physicians, clinicians, and their patients.

**Aspire Managed Services** are comprised of an experienced team providing day-to-day operational support, technical expertise and 24/7 monitoring to ensure the availability, performance, and security of your critical business assets.

**Aspire's Customer Success and Lifecycle Management** practice provides a unique value-add, which ensures that you achieve your defined outcomes and maximize the value of your IT investment.
