Derive Healthcare is a division of New York-based Derive Technologies, a premier provider of products and solutions to multiple vertical markets. For over twenty years, Derive has steadily added experience and breadth of capabilities as it served some of the world's most prestigious private and public healthcare institutions. Derive's dedicated healthcare team collaborates with customers and with market-leading technology innovators to develop unique solutions that better address ever-changing needs.

Derive Technologies offers a broad range of products and solutions to meet the uniquely challenging needs of healthcare facilities, key departments, and various clinical environments. From large hospitals to independent urgent care clinics, from the ER to the OR, and from the pharmacy to nursing units – Derive has the experience and expertise necessary to help make your next initiative a success. Derive maintains the highest levels of sales and service authorizations with the healthcare industry's foremost manufacturers and suppliers. With this, customers can be confident they are receiving the best solutions possible.
